

*Outbound 9-1-1* is an emergency alert system supported by Global Connect, an independent vendor, contracted to provide community alerting service to all municipalities in Sussex County. The data base of phone numbers were compiled from phone service providers who service the Sussex County area. Existing hard wired phone lines and telephone service provided by cable connections are all included in this data base. In the event that you feel your phone number has been omitted in error, or if you wish to add a cellular phone number or email address to the data base, you can self-register by going to the Sussex County website at <http://www.sussex.nj.us/> and clicking the *Outbound 9-1-1* icon.

If you do not have access to the internet, please complete this registration form and your information will be added. Please complete this form and return it to the Hopatcong Police Department, 111 River Styx Road, Hopatcong, N.J. 07843.
